

WELCOME TO THE **NEXT LEVEL** INFORMATION FOR EMPLOYERS

WHAT ARE T LEVELS?

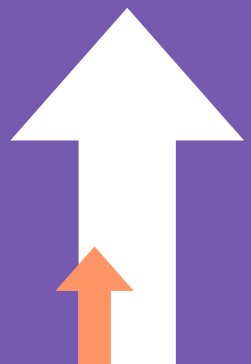

TL

T Levels are key to the Government's ambitious programme to provide the technical expertise for the jobs of the future. They are exciting new courses devised specifically with employers to ensure students learn relevant and up-to-date practices from the industry sector that interests them most.

Equivalent to three A Levels, they are technical based qualifications that prepare students for work or higher education. They include a substantial industry placement of 315 hours, which equates to nine weeks or 45 days over the two years, ensuring students benefit from a solid introduction to the workplace.

At BCA, we are continually investing in new infrastructure and equipment so learners can be guaranteed a leading-edge curriculum.

T LEVELS AT BCA:

Current T Level subjects at BCA

↗ Health

- Supporting the Adult Nursing Team

List of T LEVEL subjects from September 2024

↗ Agriculture, Environmental and Animal Care

- Agriculture (Livestock production)

HOW CAN T LEVELS BENEFIT YOUR BUSINESS?

Supporting a student through their T Level qualification is not only rewarding for you and our students, but it is also highly rewarding for your organisation too. By helping us, you will:

- ↗ Solve entry-level skills shortages
- ↗ Receive free support for your business
- ↗ Gain new ideas from young, hard-working employees
- ↗ Have early access to the brightest talent entering your market
- ↗ Give your current staff the opportunity to develop their coaching skills
- ↗ Join our trusted network of supportive employers

EMPLOYER SUPPORT FUND FOR T LEVEL INDUSTRY PLACEMENTS

The employer support fund provides funding to support legitimate costs that an employer incurs when offering a T Level industry placement opportunity.

Employers cannot claim for placements that started before 1 April 2023. The fund is for industry placements that begin after 1 April 2023 and before 31 March 2024 and is considered on an individual basis

HOW CAN YOUR ORGANISATION SUPPORT T LEVELS?

If you own or manage an organisation in one of the sectors on page 3, and you would like to support a young person striving to achieve their career goals, there are many ways you could get involved, including:

- ↗ Support students with mock interviews
- ↗ Offer masterclass delivery or site visit
- ↗ Provide real-life projects for students to work on
- ↗ Offer a work placement to a student for up to 45 days over a two-year period

We are pleased to support the Windsor Forest Colleges Group with T Level industry placements within Frimley Health NHS Foundation Trust (FHFT). Building on our well-established relationship with the colleges and being part of a transformative new qualification, we offer a comprehensive and inspirational placement programme for students.

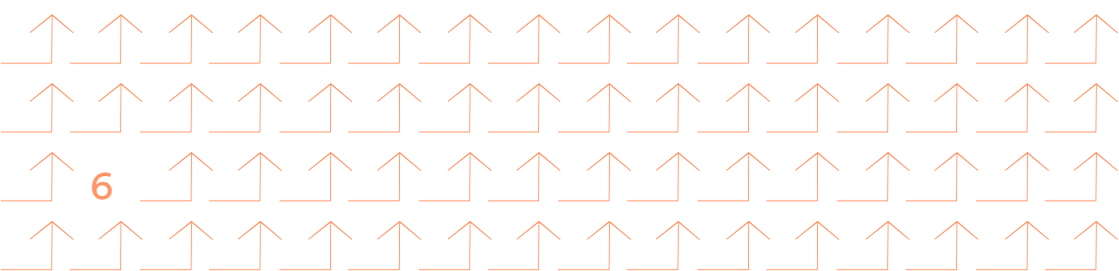

FHFT is a major employer within the local area, and we see hosting industry placements as an opportunity to support the development of our future workforce.

Frimley Health
NHS Foundation Trust

Nicola Morgan

Learning & Development Manager, Frimley Health NHS Foundation Trust

Our T Level Foundation Year Programme is a one-year course designed to develop the skills, knowledge and behaviours to support progression onto, and success on, a T Level.

In addition to enabling students to develop their English and Maths, if needed, our T Level Transition Programme provides a route into T Levels for students who may need further support to address barriers such as prior attainment, pastoral issues or personal development needs.

I chose to study Health because I am interested in becoming an adult nurse and this qualification will lead me into a nursing degree. The T level qualification is equivalent to three A levels which will allow me to start my degree course directly after leaving college. Also, this course provides me with work experience that will prepare me not only for my university course, but also to work within the healthcare industry. BCA is equipped with numerous cafes and a stunning green campus where many animals roam including those in the zoo. The campus allows me to relax between lessons and immerse myself in nature which I love. At BCA, I feel supported as I am surrounded by kind staff such as the pastoral team and my lecturers who can help with any issues or concerns.

My industry placement is in a care home near where I live called St Lukes care home which specialises in dementia care. I am excited to start my industry placement because I will finally be able to put all the things that I have been learning into practice. Once I finish my T level course in health, I would like to do a university course at the Berkshire Institute of Health and get a degree in adult nursing which will allow me to become a registered nurse. Then I would like to start practicing in acute care as my end goal is to be a trauma nurse. However I understand that along the way my aspirations may change, yet the T Level is the first step to many different career opportunities.

Lucy Mannion
T Level Health
